

Workshop: Embodied Critical Thinking *Thinking at the Edge*

The research project *Embodied Critical Thinking* invites researchers, teachers, students, and anyone interested in cultivating critical and creative thinking, to join us at this workshop. Internationally leading transdisciplinary researchers will guide us through the theory and *practice* of embodied critical thinking. The sessions are open to the public.

What is Embodied Critical Thinking?

Thinking at the Edge in Landscape Architecture and Ecology

Thinking at the Edge as a Philosophical Process Practice

Thinking at the Edge in Psychology and in the Humanities

Thinking at the Edge in Educational Studies and Innovation

Guided practices in embodied thinking
